

SUCCESSFUL MANUFACTURERS START WITH PLANNING

Connected manufacturers—those who fully connect shop floor to top floor and suppliers to satisfied customers—have unique advantages in the changing landscape.

What kind of advantages would you have as a connected manufacturer?

TRANSFORM

your business with real-time data and leverage the advanced technology that's part of today's digital economy

CONTROL

shop floor operations and decisions anywhere, anytime using real-time data

UNLOCK

the potential of people to focus on high-value needs instead of mundane, inefficient manual tasks

CONNECT

machines, plants, processes and people for a unified view of your business

But where does your enterprise start its journey toward successful connected manufacturing?

FIRST: PLAN YOUR STRATEGY

Plan across your global supply chain to execute your strategy—and react quickly if demand changes

Organizations with a mature, digital and integrated financial and supply chain planning process deliver world-class performance

\$26
supply chain cost per \$1,000 revenue

90%
average perfect order performance

31 DAYS
cash-to-cash

88%
customer retention rate

WHAT SUPPORTS A RELIABLE PLAN?

Cross-functional input from:

- Sales & Marketing**
Demand projections and market direction
- Engineering**
New product introductions, design changes and product sun-setting
- Suppliers & Customers**
Collaboration to ensure customer success
- Finance**
Expansion plans
- Upper Management**
Company direction and business objectives
- Operations**
Clear visibility to capacity constraints

AN INTEGRATED BUSINESS PLANNING SYSTEM

- Collect and leverage data for a holistic view of the business
- Manage the planning process
- Synchronize your operational and financial management systems

As a connected manufacturer, planning, data management, innovative technology and total system visibility come together to give you the power to augment and automate your business - delivering the flexibility you need to stay ahead.

Learn more about the opportunities your enterprise will unlock as you execute your plans with connected manufacturing.
